

7th IPCE CONFERENCE

Biodiversity and sustainability Rethinking Beauty

INTERCONTINENTAL PERSONAL CARE EXCELLENCE

11-12 June 2024

IPCE over the years has established as a connecting bridge between the last IFSCC Congress and the following one: in this case Barcelona and Iguassu

Together with the usual high-level scientific program, in which the authors of the best Posters of Barcelona 2023 will alternate with internationally renowned Keynote Speakers, Venice will reserve you some special surprise

Rethinking beauty while respecting biodiversity and sustainability is the common thread that characterizes this 7th edition, which will once again be held in an Italian UNESCO heritage site

The "Scuola Grande di San Marco" a treasure chest in the heart of Venice will host the two days of the Conference

SICC thanks the companies that up to now have shown interest in Cosmetic Science as a driver of people's well-being and environmental sustainability and have contributed to making this event really "special"
